

ID30 INTERNAL DOOR AND SCREENING SYSTEM

One internal glazing system. Multiple door configurations.

ID30 is a highly versatile internal aluminium door and screening system designed to create flexible, light-filled spaces across residential and commercial environments.

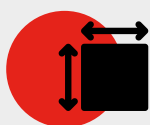

With a wide range of opening styles and configurations available, the system enables architects, fabricators and installers to deliver bespoke internal glazing solutions while maintaining a consistent, slimline design throughout a project.

Applications

Residential • Offices • Hospitality • Retail •
Commercial Interiors

Key Benefits

- Slim steel-look aesthetics with modern aluminium performance
- Maximises natural light and visual connectivity
- Multiple door and screening configurations from one integrated system
- Suitable for contemporary and heritage inspired interiors
- Designed for straightforward fabrication and installation
- Hinged, pivot, bifold, sliding, telescopic and folding options

Multiple
door configurations

Contemporary and
Heritage Styles

Flexible
Design

Fast Reliable
Service

One systems house.

Multiple accredited solutions.

ID30 is a non-thermal aluminium system designed for internal glazing applications. From traditional hinged doors, through to pivot, bifold, telescopic folding and sliding door opening options, ID30 allows designers and specifiers the ultimate in design flexibility from one single system.

ID30 combines slim aluminium profiles with straightforward manufacturing, to deliver durable, low-maintenance internal door solutions.

Key Features

- Single and double door configurations
- Fixed glazed screens and partitions
- Flexible glazing, Georgian bar and RAL colour options
- Residential and commercial applications

Performance and Specification

- Non-thermal aluminium system
- Internal glazing and screening applications
