

SW60 TRUENERGY WINDOW

Slimline residential aluminium window system with flexible styling options.

SW60 is a thermally broken aluminium window system designed to deliver slim sightlines, strong thermal performance and flexible styling for residential and light commercial projects.

With both flush, stepped and heritage styles available, the system supports a wide range of architectural styles, and can be suited with the SD70 Heritage door.

Key Benefits

- Slim sightlines for modern window design
- Flush, stepped & heritage options for design flexibility
- PAS 24 tested for residential security
- Designed for efficient fabrication
- Compatible with RD70, SD70 Heritage and TW70 systems

Applications

Housing • Residential Developments •
Refurbishment

PAS 24
Compliant

Secured by
Design

U-values from
1.2 W/m²K

Flush and
Stepped Options

One systems house.

Multiple accredited solutions.

SW60 is a thermally broken aluminium window system developed to provide a balance of thermal performance, security and design flexibility. The system offers both flush and stepped configurations, allowing fabricators and specifiers to achieve different visual styles within a single platform.

Tested to PAS 24 and accredited to Secured by Design, SW60 supports secure residential specification while maintaining slim sightlines and strong performance. It is fully compatible with SD70 Heritage, RD70 doors and TW70 windows, supporting consistent system design across projects.

Key Features

- Flush, stepped & heritage window options
- Slim profiles for reduced sightlines
- French casement option available
- Extensive range of cills

Performance and Specification

- U-values from 1.2 W/m²K
- Frame depth: 70mm
- Glazing: 28 to 36mm

Hardware and Configuration

- Top hung and side hung options
- Compatible with PVCu hardware
- Handle fixing block option for easier fabrication & installation

Maximum Sash Size:

- Side hung: 1380mm (W) × 1390mm (H)
- Top hung: 740mm (W) × 1400mm (H)
